

Features

- Push switch option
- Compact, low profile
- High rotational life and switch life
- Metal bushing/shaft
- RoHS compliant*

PEC11L Series - 11 mm Low Profile Encoder

^{**}Devices are tested using standard noise reduction filters. For optimum performance, designers should use noise reduction filters in their circuits. Specifications are subject to change without notice.

The device characteristics and parameters in this data sheet can and do vary in different applications and actual device performance may vary over time. Users should verify actual device performance in their specific applications.

Applications

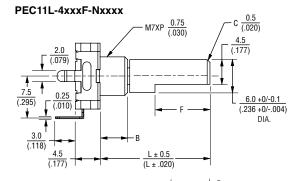

Level control, tuning and timer settings in:

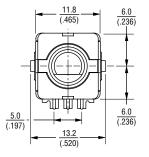

- Audio-visual equipment
- Consumer electric appliances
- **Environmental controls**
- Musical instrumentation
- Communications equipment
